Company Introduction

Leading Exporter For Marine Machine

JUB Marine Spares is one stop solution for marine engines and marine engines spares. The company has expertise and experience of more than 36 years. We supply and export new, unused and reconditioned marine engines and it's spares of makes like Wartsila, MaK, Daihatsu, Yanmar, Sulzer, Bergen, MAN B&W Main & Aux. Engine Spare Parts, Complete Main Engine, Complete Diesel / Gas Generator and Complete Aux. Engine.

We are based near the world's 2nd largest ship recycling yard "ALANG". We procure marine machineries, engines and spares from ship recyclers and carry out necessary maintenance and quality checks at our workshop to serve the best quality products to our clients.

In addition to this, we are committed towards developing quality range of products and increasing operational efficiency, revenue and reduction in expenses and wastage of resources. We are supported by a skilled team of professionals who help us in executing varied purchasing or selling activities with perfection and utmost precision. Moreover, we will also soon doing implemented total quality control management throughout the process in order to match up with the international standards of quality.
